Guest Speaker Biography

Cassandra Browning, CPC

Cassandra began her recruiting and staffing career in early 2009 with Whitaker Technical Services where she serves as Research and Production Assistant to the Division's Vice President. Her responsibilities include recruiting in support of both retained and contingency searches, facilitating client communications, systems improvement, and other production-related research projects. She was promoted to Search Consultant in mid 2010 to expand her role focusing on client and candidate development. Prior to joining Whitaker Technical, Cassandra enjoyed a successful teaching career. Additionally, she had previous experience in an operations capacity, responsible for staffing, personnel management, departmental development, policies development, and design applications for an independent baseball team. This unique background has given Cassandra the foundation for a successful career in the staffing industry by allowing her to apply her strong interpersonal and communication skills toward understanding and fulfilling the needs of both her candidates and clients.

Cassandra graduated Magna cum Laude from Texas A&M University – Corpus Christi with a Bachelors Degree in Business Administration and also has a Masters Degree in Secondary Education. She received her CPC (Certified Personnel Consultant) in April 2010. Cassandra is an active member of SMRP (The Society for Maintenance and Reliability Professionals).

SRE Mission Statement

The SRE is an organization that promotes reliability engineering through a community of professionals involved or interested in the application of reliability in all areas of the discipline. SRE has chapters in many US locations as well as internationally.

SRE Purpose Statement

The SRE Greater Houston Area Chapter was established to provide a forum for education, networking, and professional development in the reliability discipline. Our current focus is in the NASA community, but will extend to other industries as the chapter continues to grow throughout the Greater Houston Area.
